Please email the completed form to Rhondablondm@gmail.com. Most quotes provided within 7 days of receipt.

Quotes will vary depending on type of session selected, session adders, location (traveling), time requested, number of participants, coordination required, etc. Rhonda typically shoots on a traditional Canon Camera at about 75-100 shots per hour (or more) depending on number of locations, willingness of participants, number of poses, and other factors. Sessions start at \$200.00. **There is no cost per unedited photo.**

Serenidad Ahora believes you should get every picture taken. These can be transferred electronically, or for a fee you can take home the SD card used the same day the photos are taken (no editing is available for this option as we will not have access to the files). This option must be confirmed in advance.

Please note: Sessions are available on a daily basis depending on existing bookings. Most photo sessions require: set-up and style coordination, photo session type/goals, time for consolidation and transfer. These hours are included in the quote. If additional time or adders are needed, please select above.
